March 17, 1999

To Whom it May Concern,

I want to say that I oppose the Draft M.O.U. being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I so value the existence of these specialized compounding pharmacies - my compounded prescriptions alleviate symptoms that were previously debilitating such as depression, sleeplessness, anxiety, really heavy bleeding; cramps - during menstruation. I use a progesterone tablet that is sublingual - because if I take 100 mgs. where I swallow the pill orally - I get very dizzy; nausea - so in my case these specialized E449 sublingual tablets have been a life saver along with the progesterone cream I use. →

98N-1265

Please allow these pharmacies to continue to serve customers like me - it's important.

Thank you very much -

A Kane Dopr
